

## 6<sup>th</sup> Form 3

Dear Parent,

Hello, welcome to the summer term.

In this flyer you will find information about some of the topics we will be working on this term, and ways in which you can support learning at home. 6<sup>th</sup> Form 3 students write in their diaries every Monday, information related to all their lessons and equipment they will need for their week ahead. Below we have identified skills we will focus on to provide guidance and support to learners. In order to consolidate knowledge, build confidence and independence skills

What we will do in 6<sup>th</sup> Form 3...

What students could be encouraged to do at home...?

### PSHE and Life Skills

The Post 16 Base at Fenny Stratford is coming along nicely. All learners have taken ownership of their environment, and display great pride in the work they have achieved so far. This term we will continue to develop, learning new and consolidating old skills along the way.

- check dates on foods
- make own bed
- prepare and pack own lunch
- wash and dry up
- help around the home
- using a tape measure
- pack own gym bags

### Functional Literacy

Our diary planning continues on a weekly basis, informing learners of their week ahead. We will continue to plan and write about our experiences within travel training and the community. Supporting learners to develop a greater understanding of the world outside the classroom in a variety of scenarios.

Please ask your child to share their diary with you and ask them to write in any information that could enhance their English skills. When out in the community together ask your child to read unfamiliar information or notices to encourage confidence.

### Functional Numeracy

This term as a continuum of money in the community we have Metro bank visiting. They will be showing us how to keep our money safe, when using cash machines and when online. A long with I am sure all the wonderful services that Metro bank could offer us. Time keeping will be encouraged throughout the day in various activities to promote independence and responsibility.

- time related activities
- comparing prices
- shopping within a budget
- using cash to buy items and checking change
- students who have their own bank accounts to use a cash point safely.

### Vocational skills

**Moulton**- Food Technology- Wednesday  
**Horticulture**-Our environment- summer planting, containers.  
**Days out** - learners planned day trips

Please ask your child to share with you information they may have learnt from these subjects. In Art each student is designing and producing a number which when complete will make a clock for our new base. Check with your child to see if they need any support from home.

### Functional ICT

We will continue to look at safety on the internet, using the website [www.ceop.police.uk](http://www.ceop.police.uk) . Along with developing further our skills with Microsoft word and the internet to plan and prepare our Days out vocational project.

- Using price comparison websites to check prices
- Using self- checkouts in stores
- Reading online bus travel information
- Read together and discuss safety information on the [www.ceop.police.uk](http://www.ceop.police.uk) website.

### Travel Training/ Community skills

We will be widening and transferring our skills by travelling further afield to unfamiliar destination. Learners will be encouraged to be as independent as safely possible and will have opportunities to access shops, libraries and local areas independently. Learners who are leaving this term will focus on travelling from their homes to their new placement as part of their transition planning.

If your child could be encouraged to take notice of their environment and a certain routes they may walk or travel. Ask questions related to the journey or a recent shopping trip where stores or items brought could be recalled or cost remembered. Any opportunities to use public transport will help support all aspects of our travel training.

Cookery at Moulton College remains a favourite part of the week in 6<sup>th</sup> Form 3. I am sure we will continue to produce some very tasty dishes as well as develop a greater understanding of health and safety in the kitchen.

Students are showing progress when attending Bletchley Leisure Centre. Some students have increased their fitness levels and others are learning new techniques to support and maintain their health.

Students continue to have access to the swimming pool and the gym, both areas are supported at all times by staff. Please contact the staff team on 07946596116 should you have any enquires or questions related to the term ahead.

Della and the 6<sup>th</sup> Form 3 team.
