SPRING TERM

HEADTEACHERS NEWS

It is hard to believe that I have been at the school now for nearly a year, the time has just flown. As normal the term has been full of exciting events such as trips to Bletchley Park and Stoke Bruerne Canal, it was also fantastic to see the return of the Shakespeare company to the school, this time working with students from the middle department. Friends of The Walnuts did a fantastic job organising the school disco and thank you to those who donated raffle prizes. Unfortunately, the event was not as well attended as we had hoped, it would be lovely to see more children and young people attending these events in the future.

As we approach the Summer term key points to note:

Snack:

Yes	No
Rice cakes	Crisps
Fruit based snacks	Chocolate
Vegetables	Sweets
Breadsticks	Anything containing nuts
Dried fruit	

Next term we'll be working hard with the children and young people to promote healthy eating. To ensure that the children and young people are encouraged to try healthy foods the school will only be providing fruit and vegetable options. I recognise that for some children and young people this will be a significant change, to support this parents and carers are welcome to send in a snack from the 'Yes' list below.

School leavers Year 11 and Year 14:

All young people who are leaving The Walnuts at the end of Year 11 or Year 14 last day will be Friday 28th June 2019. This is to allow students who will be remaining, to have an extended transition period with their new class teacher and peers. The Leavers Assembly will be on Thursday 27th June 2019 @ 2pm.

Teachers:

At the end of term we are saying goodbye to Della Wheal, Karen Lewis and Nicky Guthrie, we wish them every success in their new adventures. We welcome back Sarah Watts and Laura Watts (later in the term) and welcome **Natasha Jackson**. We also say good-bye to our teaching assistants, Emma Forsey, Abbey Garvin and Ellie Nicholson.

Have a fantastic Easter break

Lisa

PINE GROUP

During the first few weeks, I spent time getting to know Pine Class children's personalities, likes and dislikes. It was pleasing to observe how well the children adapted to the change.

The theme for first the half of the spring term was on Transport. The story focus was "Pirates Love Underpants". The children had the opportunity to dress up as a pirate, and navigate the wooden ship in class. They used the computer paint programme to design underpants, using circles. The Maths focus was exploring 2D shapes, building boats and trains. The Maths concept was extended into our cooking sessions, using rectangular biscuits to build a train. The children iced their biscuits, and used cream to create a steamy effect. They loved the twirling white steam. During the second part of the term, the children explored earth and space. Fortunately, we were able to take most of our learning outdoors due to pleasing weather days. The children enjoyed the story, Whatever Next, and were engaged. Pine class enjoyed their visits to the park, and swimming. Pine group team would like to wish everyone an enjoyable two week break.

CEDAR GROUP

This term Cedar have had transport and space as their topic. In the first half of the term Cedar learnt about the different ways of travelling by air, road and sea. They made a big display showing all of the vehicles we use to travel. They really enjoyed the messy play aspect of making the scenery. Cedar particularly enjoyed the Barefoot books about transport and would sing them every day. In PE they were improving their hand eye coordination and learning new ball skills.

In the second half of the term they have really enjoyed reading all of the story books about space and particularly liked 'Aliens love underpants'. They thought it was funny that aliens would travel to earth to steal and play with our underpants! As part of the topic we learnt about the environment and how we need to look after the world. One way of doing this is picking up our litter and recycling. Cedar enjoyed the computer program where they had to sort the rubbish into particular categories. Cedar have been working hard on taking turns and playing with their friends in a positive way. They have enjoyed what's in the box, playing turn taking games and joining in physical activities with their friends.

ASH GROUP

This term Ash group have been busy with our topics of Transport and Earth and Space. We had a lot of fun with our sensory story of Emergency vehicles, zooming around with sirens, communicating with walkie talkies and splashing around with rescue boats. All children enjoyed joining in and anticipating what comes next in the story.

We have also been working hard on our fine motor skills and gaining more independence with our work tasks. We continue to enjoy spending time outside of school as well, with trips to the park on the bus or walking to the local park, developing our skills of walking safely. This has also helped us to start walking to the shop with a shopping list; beginning to understand how we can buy things we want. During this term we have re organised our classroom and created a fantastic area for the children to spend some time relaxing and beginning to develop their self-regulating skills so they are ready to learn. Lindsay, Adrienne, Jane, Chantel and Nic

LAUREL GROUP

What a fantastic term we've had in Laurel. The children have had some wonderful experiences and have had a wonderful time along the way.

Our topic for the first half term has been Transport and the children have learnt all about the different types of vehicles including trains, boats and aeroplanes. We have looked at three different books, but we especially enjoyed the Train Ride as we went to visit Milton Keynes train station and spotted at least five different types of train. We were a little disappointed though as we didn't see any steam engines! We also looked at floating and sinking as a topic in Understanding the World. This was our favourite because not only did the children get rather wet, so did the staff. It turns out we don't float.

In maths we looked at the language of size and had great fun deciding what was big and what was small. This was made infinitely easier when comparing different sizes of chocolate bars. What was strange was how quickly the large bars became small bars. Forest School has been a real highlight of the second half term. The children have visited Slated Row school with John and have enjoyed exploring the Forest School area (paying particular attention to big and small trees!) and making leaf crowns.

HOLLY GROUP

Holly Group have had a lovely spring term and we are particularly enjoying the first break of sunshine! We have explored a variety of means of travel during our first topic of Transport, and enjoyed reading some of the books. The children particularly enjoyed 'Emma Jane's Aeroplane' and were excited to 'visit' different countries. The 2nd half of spring term, the children had fun learning about verbs in our Space topic. They are beginning to understand what a verb is and have enjoyed exploring different ways to visit space. We also designed our own underpants to fit in with our last story of 'Aliens Love Underpants'. Towards the end of term we had a visit from 'Men in Sheds' and Holly Group were picked to welcome our new Mud Kitchens. Kodi, Abdul and Thomas went to have a look and gratefully received the kitchens. The children are all looking forward to using them in the Summer Term.

We hope you all have a lovely Easter break and let's hope the sunshine stays so we can spend some time in our gardens or going to the park. We have many exciting things coming up in the summer term like Multicultural week and the famous Zoo trip!

CYPRESS GROUP

Cypress group have had an amazing and creative Spring term. In the first half of this term, we have been busy learning about different modes of transport and their use in our daily life. The children have enjoyed listening to a wide range of books and have been engaged with many fun activities related to their experiences about transport.

In the second half term, our topic was 'Earth and Space'. We have explored space and all the planets. We have travelled to the Moon and the stars through reading space books and looked in depth at planet Earth with its continents and oceans. We have also enjoyed spending time outside in various parks practising our independence and life skills. We have learnt about feelings and different ways to regulate ourselves and make us feel happy and calm. We have developed our social skills and our relationships with peers and adults around the school environment.

It has been a nice experience to learn about the four seasons of the year and given everyone's great preference to the summer, we are really looking forward to the Summer term and our fun playing and learning in the sunshine! Wishing you all a very Happy Easter. Cypress team

SYCAMORE GROUP

This term's topics have been very popular in Sycamore Group! Our first topic was *Transport* and the children enjoyed comparing old and new trains, role playing steam train drivers, exploring how boats float and testing paper aeroplanes. They all got involved with our three focus stories: *Emma Jane's Aeroplane*, *The Runaway Train* and *Little Boat* (as shown in the photo). These lovely stories enabled the children to show off their reading and emergent writing skills.

Our second topic has been *Earth and Space*. The class have been learning the order of the planets from the sun using the mnemonic *My Very Excited Monkey Just Sits Under Noses!* They have used non-fiction books to find out about the planets, and have used their knowledge to make a class non-fiction book about them. They have watched video of British astronaut Tim Peake on the International Space Station, and have learnt about some of the key moments in the History of Space Travel. Some of the children were very amused to hear about Laika, the first dog to go into space!

Wishing you all a happy and restful Easter break, from all in Sycamore Group J

CHERRY GROUP

Cherry has focused on the story Noisy Town, we listened to the different sounds the vehicles make. We also enjoyed exploring the different sounds from the wheels on the bus song. These stories linked to our topic on Transport, we all enjoyed completing sorting activities to learn about different types of land, sea and air vehicles. The pupils particularly liked the art activities such as creating lolly stick planes and junk modelling of a train. During our numeracy lessons we have looked at sequencing numbers and number value. Cherry class enjoyed looking at shapes and the shape of everyday objects. We have also been learning about big and small. Cherry class access the community weekly, we use visual shopping lists to find items that we need for snack and cooking. Using subject, verb and object symbol sentence strips we have been learning to communicate effectively. We have been also working on recognising and regulating our emotions.

From everyone in Cherry, we hope you a good Easter holidays.

ROWAN GROUP

This Spring term Rowan worked hard at developing their knowledge about toys and transport. Pupils were developing independent living skills like looking after themselves, too. Rowan has been learning about the importance of personal hygiene and tooth care. In Numeracy we have been practicing sorting items by type, function and colour. We have been ordering by length, weight and size. In PSHE we have been learning about feelings and emotions and different ways of dealing with them. In ICT we continued to incorporate the iPad into the classroom, through educational applications that have helped the children to distinguish toys from the past.

In PE our pupils have been encouraged to develop and enhance their gross motor skills. We have been experimenting with different ways of moving and travelling with greater confidence. Movements have included; around, under, over and through balancing and climbing equipment and developing our ball skills.

We would like to take this opportunity to thank all parents for your help and support with Rowan class. Happy Easter!

HAZEL GROUP

This term in Hazel group has been exciting, especially when we went to Milton Keynes Theatre to watch the Robin Hood Pantomime, and it was a bit scary. Our topic for the first half term was Water; we had a visit from Anglian Water who showed us how to make clean water and had a middle school trip to Stoke Bruerne to see the canal, try pond dipping and go on a boat trip through the Blisworth Tunnel! Hazel group are starting to be times table superstars and are getting lots of stickers for knowing multiplications in any order without looking. For this second half term our topic has been WWII and we have had lots to learn.

We had a middle school trip to Bletchley Park and have learned about Alan Turing and in maths have tried to break codes and make our own Enigma machine. Hazel group have been doing lots of descriptive writing this term and some children entered the Radio 2, 500 words competition for story writing! We have been going on weekly trips to different libraries and have lots of books that we love reading and sharing. Phew, we have been busy!

OAK GROUP

Oak Group have had a busy term. We have really enjoyed our class swimming sessions and our community outings to different parks around the town. We have been working on socialising together and learning about the different sensory experiences we all like. We have made lots of food from around the world, particularly Chinese food. Happy Easter everyone.

MAPLE GROUP

Maple group have enjoyed a fantastic Spring term; we really enjoyed the topic of transport and had lots of fun playing with trains and cars in class. We enjoyed making hot air balloons and junk car models.

This half term we have looked at toys; we got to play with some toys from the past and compare them to the toys we play with now. We also enjoyed learning how to play dominoes and have, with support, been playing group games.

The boys have really enjoyed science this term, and we have looked at what different things are made of and the different jobs materials do. They particularly enjoyed experimenting to see if different materials were waterproof or could float; we needed to be wearing more waterproofs for this but it was lots of fun!

Have a lovely holiday! We are looking forward to a great summer term, From Georgie, Caitlin, Michelle and Nicky.

CHESTNUT GROUP

Chestnut group have had a very busy term! Our topic for the first half term was land, sea & air transport. In literacy, we used colourful semantics to describe different types of transport, using attributes of colour and size. In play choices, we created lots of art work and enjoyed moving around in a cardboard fire engine!

This half term we explored old and new toys and had fun using pushes and pulls. We enjoyed reading the text Knuffle Bunny by Mo Willems. We all got very domesticated, sorting the laundry, putting the washing on, taking it out and then hanging it to dry! We had lots of practice sorting items that belong in different rooms of the house e.g. the fridge vs the wardrobe. Happy Easter!

WILLOW GROUP

Willow have worked hard this term, we are all able to sit at the table for up to 15 minutes during circle time and table work for every subject. We have been learning about 3D shapes in Maths, we learnt the names and which shapes rolled. We also learnt about sizes and capacity. We looked at big, small, long, short and weight. The children worked really well with comparing the sizes and weights using the scales to find the differences. In English, we have been working on forming sentences and filling in gaps in sentences. Some children worked with SVO symbol strips and some worked with words. The higher ability have been working on complex sentences and matching descriptive paragraphs to pictures from the books we have been reading. In phonics, we have been practising our letter formation and pronunciation of different sounds. In Humanities, we have been learning about old and new toys. We have shared these toys with each other. The children explored the toys, pressing buttons and moving them to make a noise. In Science, we have been learning about different forces and explored different toys that we can pull and push which the children really enjoyed.

All the children have progressed well on their hand motor skills and fine motor skills in cooking, art, messy play and PE

BIRCH GROUP

Birch group have packed plenty into their Spring term. Our first topic was Water and we learned a lot about the water cycle, the importance of clean water in our lives and what we can do to conserve it. We visited the canal at Stoke Bruerne and later a lady from Anglia Water came in to show us how sewage is processed so we can enjoy clean water at home.

More recently we have been learning a lot about the Second World War; how it started; who was involved; what it was like for young people living at the time and how people worked together in difficult circumstances. It is a very big topic and everyone found at least one aspect of it fascinating. This led to some interesting discussions and some excellent work in humanities, science, English, art and cooking, as well as a wonderful trip to Bletchley Park.

Birch have also continued their regular swimming trips, which have proved to be hugely rewarding in bringing the group closer together. Their weekly walks to the shop combined with their Maths work on money have helped to build their confidence with buying items and working out the correct change. It has been a term of great progress for everyone in Birch group.

REDWOOD GROUP

It has been an absolute pleasure to get to know Redwood group this term, they have all made me feel very welcome and we have done some fantastic activities to help us to get stuck into our topics *Water* and *World War 2*.

During our *Water* topic Redwood group really enjoyed going on a trip to Stoke Bruerne where we walked along the canal, had a ride on a canal boat and watched the mechanism of a lock. A few weeks later we were lucky enough to have Anglian Water to visit and they helped us all to understand the importance of water conservation as well as the water cycle. The pupils engaged so well and asked some lovely questions.

The highlight of the term has definitely been visiting Bletchley Park as part of our *World War 2* topic. The pupils had a fantastic time exploring the grounds and learning about de- coding secret messages.

Redwood group had a lovely time making some electric cars as part of an engineering project. We were lucky enough to have an engineer come into school to help us with this project. We got to ask him lots of questions about his job.

Well done to all of Redwood group for your hard work this term, Have a lovely Easter, Ruth, Dina, Jess, Amy and Wendy

POPLAR GROUP

Poplar class have had a busy spring term. Our first topic was transport; the children enjoyed learning about what vehicles went on the land, in the sea and in the air. We made acrostic poems in literacy about different transport. We also looked at a book called 'Whatever next!' The children were able to build sentences about the pictures in the story. In maths we ordered vehicles by size, as we were looking at big and small.

For world book week we immersed ourselves into 'The hungry caterpillar' book; the children enjoyed retelling the story, counting the fruit, ordering the days of the week and making butterflies in art.

Our second topic has been toys. The children enjoyed weighing different toys in maths as we learnt about heavy and light. In literacy we learnt how to make lists; the class were able to make lists on what toys they could see in the toy box. We have been doing various shared attention sessions where we have explored old toys and new toys and toys we can push and pull.

Poplar class are excited to come back after Easter to start our next topic on pets. We hope you all have a lovely break. Poplar Team

UNS

UNS have had a busy spring term. We have continued to make progress with work towards a variety of WJEC units. In Maths we have focused on money and position relating these to everyday activities. In English we have continued to develop our communication and social skills.

As part of our independent living skills we have spent time in the independent flat developing our bed making skills and mastering hoovering along with understanding safety in the home. During our work related learning we have delivered poster around the school and with a main focus on developing our understanding of how to prepare for work.

Another skill we have focus on is food preparation, following instructions and developing our independence during our weekly sessions.

We hope you have a fantastic Easter and look forward to the summer term!

USS

It has been such a fast paced spring term for us all in USS, we have celebrated book week and helped to raise money for comic relief. However a huge success has been our enterprise project that got underway this half term as we set up our 'Budding Gardeners' class business. We grew sunflowers and sweet peas from seed in class as part of a cross curricular project covering functional English and Maths, life/work skills, enterprise and science. We managed to grow about 30 sunflowers and over 30 sweet peas as well as growing on some geranium and gazania plug plants. This all resulted in a very successful plant sale last week which has given us some profit to invest in our next plant project. The students have surpassed themselves by working so hard on following instructions to sow, plant, pot-up and water our plants, as well as advertising the sale, taking orders from staff, picking the orders and delivering them. We are currently rearing tomato plants which we hope to sell next half term. We are really looking forward to what next term brings. Happy Easter to you all, from the USS team.

UKL

Upper KL has enjoyed the Spring Term. We have learnt about the Aztecs in Humanities and all the class enjoyed the chocolate testing and evaluating as part of this topic. In PSHE we have been learning about healthy eating and keeping fit. As part of this unit we have walked around Willen Lake and to the local shops to buy fruit and healthy snacks. We have continued with our healthy living theme in Food Tech and have made smoothies and fruit kebabs. We have also looked at how to stay healthy in Science. In Maths the class have worked on measurement, money and time. The measurement skills came in useful when measuring and weighing in Food Tech. In English the pupils have looked at different authors and genres and followed instructions in order to make food for Chinese New Year. We have also planted, grown and sold vegetables and flowers.

We would like to wish you a peaceful and restful Easter break. As you will be aware, Karen is leaving this term and Natasha Jackson is looking forward to becoming the new class teacher after the break.

Best wishes from all of us in Upper KL.

UJP

In Maths this term, UJP have been focusing on Money and Time. The students have been reading the time on both analogue and digital clocks and have also been considering times of the day, week and year.

In PSHE the students have been working towards achieving personal goals and have also been considering what makes a healthy lifestyle. The students have been able to identify what they need to do to keep healthy; including eating fruit and vegetables and drinking water.

The students have also enjoyed Book week and Red Nose day this term. They were able to join in with the fun activities going on throughout the school giving them an opportunity to interact with peers and enjoy dressing up.

We've all been working so hard and are very much looking forward to the Easter break. We hope you have a lovely break too. From Jamie and the UJP Team.

USA

During the spring term, group USA worked hard on improving our independent living skills and gaining some work experience throughout the term.

Opportunities were created for learners to engage in various independent skills including bed making, loading and unloading washing machine and dish washer, folding clothes, emptying bins and replacing bin bags among other independent living skills.

Learners also had opportunities to engage in various work related activities around the school to gain some work experience in preparation for adulthood. Learners experienced sorting and distributing internal posts, collecting and sorting recycle wastes as well as other work related learning activities.

Group USA continued to improve their numeracy and literacy skills throughout the spring term; the focus was on position and understanding positional language.

UDF

UDF has been working diligently during Spring Term. Our English learning has included functional skills with a focus on the practical use of English with the writing of letters, (both formal and informal) and emails. Latterly, the pupils have been learning about Greek myths with two specifically studied: Pandora's Box and Daedalus and Icarus. These two stories have been considered in some depth. The class has written some stories around the theme of Greek myths using the vocabulary from our spelling tests. During the PE sessions pupils have been using both the gym where they have been developing both their ball skills and their team work. We have also been using the Ball Court where we have enjoyed cycling. In Food Preparation lessons the boys have been learning about knife skills, their practical and safe use. We have been making pizzas more recently and learning to make and work with dough.

We are very much looking forward to the Easter break and hope that you have a wonderful holiday. Thank you for all your support and we look forward to continuing our progress in the Summer Term. From the UDF team: Amy, Charlotte, Ellie and Duncan

SIXTH FORM

Within Post 16 this term students have had a variety of opportunities to develop a greater understanding of the world around them. Reflecting back over the school term students have explored their individual experiences and celebrated their personal progress. A variety of new environments and opportunities have helped to shape a more mature outlook to their personalised learning. Some of the students in 6th Form wanted to share their own thoughts and reflections on their achievements and future plans.

“Enjoy your Easter”. Sam

“I have had a good term in 6th Form; I have completed Life and living coursework and been to tesa to do work experience and taken part in enrichment every term. I am looking forward to another year in 6th Form.” Jason

It has been a pleasure empowering students to achieve their best and sharing their experiences and achievements. Next term will continue to provide many opportunities. Hope you all have a fantastic Easter. Della and the 6th Form team.

Sixthform 2: Students have been attending Milton Keynes College, as

part of transition. They have coped really well with the different environment and meeting new people, enjoying using the kitchen facilities.

Class base work has involved working really hard to complete their OCR modules.

During the week we have been visiting a variety of shops reinforcing their money, communication and life skills. They have been buying their lunch and snack.

We would like to say goodbye to our leavers Chloe, Ryan and Mehran as they will be leaving the Walnuts in June 2019, they have been a big part of the class and we wish them well in their future pathways they will be missed.

THE ARTS

Art has been a great success at the Walnuts these last two terms.

A variety of different techniques have been explored such as; silk painting, 3D forms, casting, portraiture, clay modelling, ceramics, life drawing, pastel work, tone/negative space and print making. Some of the classes can confidently recall and debate the style of a variety of different artists from a wide range of mediums.

Students this half term have been participating in drama workshops with the west end school drama group, the main focus was to explore the script of A midsummer night's dream.

THE THERAPY TEAM

The therapy team have had another busy term. Rebound has been great and the pupils are really enjoying it, therefore, we are looking to expand the amount of sessions we can offer. Our coffee mornings were a good place for parents to meet and share ideas, with addition to getting advice from the Speech and Language therapist and OT. We are looking to do more of these in the future so please keep an eye out. The new school structure has meant we are now working closely with the behavior and stress team; they have attended training sessions from the therapy team and are now supporting some of our programs. We have had the pleasure of having Tracey our temporary Speech and Language therapist for the last term, unfortunately she is leaving us and we would like to wish her all the best in the future. As always please feel free to contact us if we have any questions or queries.

Happy Easter The Therapy Team

**YEAR 11 AND 14 LAST
SCHOOL DAY:
FRIDAY 28th JUNE**

**TRANSITION WEEK :
8TH JULY**

IMPORTANT NOTICE — IF YOUR CHILD IS UNWELL OR NOT ABLE TO COME TO SCHOOL

School makes a lot of additional demands upon your child. If they are not well, they are unable to cope with the demands of a school day which can delay them getting better. In fairness to other children and staff, please keep your child at home if you suspect they are unwell.

Children with diarrhoea and/or sickness are asked to stay at home for 48 hours to help them get better and prevent the spread of the infection. This is in line with Local Authority guidelines.

If your child has transport it is your responsibility to phone and cancel the transport arrangements for the duration of the absence.

If your child has to miss school through illness/medical appointment / other reason, please let the school know as soon as possible with the reason that your child is absent by contacting the site that they are based at — Lower School on 01908 646119, Main Site 01908 563885, Sixth Form 01908 379208. If the school is not informed, you will receive a phone-call/text asking you to contact us and inform us of the reason of absence. We will continue to try to contact you to obtain the reason of the absence of the pupil, so please remember to contact us first.

**PUPILS RETURN TO SCHOOL
AFTER THE
EASTER BREAK ON:
TUESDAY 23RD APRIL**
